

AMENDMENT TO THE SPECIFICATION

Please replace the paragraph beginning at page 3, lines 2 to 10, with the following rewritten paragraph:

-- Referring to Figs. 1 to 3, the hand tool 10 of the present invention comprises a driving end 11 which includes a fixed jaw and a movable jaw, and the driving end 11 includes two lugs 111 and each lug has a second hole 112 defined therethrough. A handle 12 has a first end connected to the driving end 11 and the first end of the handle 12 has an insertion **[[121]]122** with a first hole **[[122]]1220** defined therethrough. The insertion **[[121]]122** is located in a space 113 between the two lugs 111 and pivotably connected between the two lugs 111 by extending a pin 20 through the second holes 112 in the lugs 111 and the first hole **[[122]]1220** in the insertion 121. Therefore, the driving end 11 can be pivoted according to needs as shown in Fig.

6. --
